CENTRAL INTELLIGENCE AGENCY

WASHINGTON, D.C. 20505

OFFICE OF THE DIRECTOR

4 June 1971

MEMORANDUM FOR: Mr. Charles S. Whitehouse
Acting Chairman
NSC Ad Hoc Committee on Vietnam

SUBJECT : VC Infrastructure Assessment

1. Attached for your consideration is a draft paper entitled "The Viet Cong Infrastructure: Its Status and Effectiveness," prepared by the Agency at Mr. Sullivan's request to serve as a basis for the infrastructure analysis with which the ad hoc committee was tasked in Dr. Kissinger's memorandum of 18 April. This submission, in effect, outlines the problem and present prospects. We are preparing a separate paper which will address the issue of allied counter-VC programs and offer suggestions for program modifications.

2. I am also sending copies of this draft to our colleagues on the committee as noted below.

REMARKS:

The attached was circulated at the Sullivan Committee this morning (4 June). It was written in response to Bill Sullivan's request that we prepare the draft of the Committee's response to the VCI task levied on the Committee by Dr. Kissinger in connection with the current SRG exercise. I thought you might find it of interest and would welcome any input or comments you may have. These can be relayed either directly to me or via John Holdridge, who -- as you know -- is the NSC representative on the Sullivan Committee.

REMARKS:

Attached is a paper the genesis and nature of which is explained in the also attached copy of my buckslip to Wayne Smith. I am sending this to you after a conversation with Dick Lehman. I am not trying to end-play my committee colleagues, but the draft is pretty good and it might make interesting travel reading.
